[Econation Offers Luxury Alternative Fuel Vehicle Rentals](#)

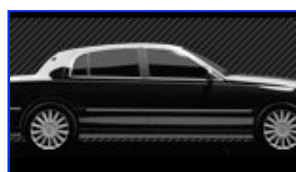

Posted on: September 9th, 2008 by Melissa

If you are travelling and a standard [rental](#) just won't suffice, [Econation](#) now offers green chauffeur service on a global level. In a September press release, Ben Bloch, Managing Partner of Econation, said, "Our clients have asked us from the beginning to create a ground transportation company that can book a 'green' vehicle for them anywhere in the world with the same level of service that Econation

provides here in Los Angeles. We feel we have created that network globally by enabling a stringent ongoing quality of service program in addition to helping our partners take the next steps in becoming an environmentally - friendly provider."

Econation's fleet consists of the hybrid standard [Toyota Prius](#), an alternative fuel Executive L Series Lincoln Town Car and the [Hybrid GMC Yukon](#). Each vehicle is black with tinted windows, black leather and experienced chauffeurs.
